Together we can shine like the stars

Date: April 6, 2014

All

On the second week-end in March of 2014, Zetwal Mission Outreach (ZMO) had the opportunity to meet with EDAAD; our Haitian partner to visit a school in the city of Tabarre, Haiti. The school is called St – Thomas d 'Aquin. It offers the equivalent of K-12 grades and serves up to 800 kids.

We brought school supplies. We had a long conversation with the school director about the needs of the students and her most pressing desire would be to offer food to the children who come on an empty stomach. We all know that hungry children have more difficulty learning and education is very important to offer hope for a better future.

The goal would be to offer meals 3 times a week. A typical Haitian meal consists of rice and beans with water or juice to drink. We would have to buy the food, hire a cook and someone to serve the food. The estimated cost of the program to feed 800 students is about \$2000 USD per month. The school year is typically from September to end of June; therefore 10 months. In total we would have to raise \$20,000.

per school year. ZMO and EDAAD are looking for partners to donate or defray the cost of the food in order to make this program sustainable. The team would like to pilot the program in the fall of 2014 if these partnerships can be found.

Afterwards, the director took me around to see the classrooms and visit with the kids. The classroom size varies but the lower grades are 40-60. Higher grades have fewer students 20-30. The kindergarteners and 1<sup>st</sup> graders share a very room. They were divided into 3 groups. Some of the kids were learning English so we had fun practicing together. Others were studying math or French.
