Together we can shine like the stars

Date: April 6, 2014

All

On the second week-end in March of 2014, Zetwal Mission Outreach (ZMO) had the opportunity to meet with EDAAD; our Haitian partner to host a clinic mobile for one day in the city of Tabarre a north-east suburb of Port au Prince. JADT (Jeunes en Action pour le Development de Tabarre) a youth organization also joined in to help.

The clinic was held on Saturday March 8th from 9:30 AM to 3:30 PM and the team served 154+ patients. The clinic was set up in a park next to the Catholic Church in Croix-des-Missions/Mapou neighborhood. A couple of helpers went out around the town advertising the clinic using a megaphone and inviting people to come.

Benches were setup in the courtyard for the patients to use while waiting to see the doctors. The clinic flow was such that the patients would first see the nurses (**Mme Paul and Mme Dahlene**) for vitals (Blood Pressure and Temperature) and recording of their demographic information. Next the patients would consult with the **Dr Pera** and **Dr Dores** who recorded a diagnosis and prescription. If the patient needed additional lab work they were referred to a nearby clinic (the St Andre Medical Center of Mapou) for further evaluation. A tent was set up for storage and the medical supplies were organized on a table where **Dr Tannis** and **Nurse Janice** helped the team fill the prescriptions from our available stock. Martha, Julie and myself also helped in the process. Once the prescriptions were filled we handed out gifts the children and family before they left. The gifts consisted of beany babies for the kids and hygiene kits for the parents. The EDAAD team had packaged the kits the nights before from all the donations we had received over the year. We had baggies of toothbrushes, or band aids, Q-tips and Neosporin. We gave away all are kits.

It was a very busy and successful clinic. With records on 151 patients, we saw that 65% were female, 37% were 12 or under, our oldest patient was 84 and our youngest 5 months. Many of the patients suffered from gastric distress, pain, infections and poor nutrition. Clinics like these are critical to provide a path to better health and to serve as a teaching moment for better nutrition, the importance of clean water and to offer hope. All the families were very grateful and asked that we come back to their neighborhood soon.

Thank you to all our supporters who donated funds, medicines and beanie babies that allowed us to host this clinic mobile. Together we bring hope so all can shine like the stars.
